A BIT ABOUT US

Founded in 2009, UK Events Limited began with the sole aim of delivering a plethora of quality dance floors to the event industry. The company quickly grew, with other event suppliers throughout the UK quickly identifying the quality, care and responsiveness of this new small business. In conjunction with supplying high end disco packages, UK Events Ltd quickly invested in more and more stock, today being one of the largest in-house dance floor suppliers in the UK.

Quickly outgrowing premises, the company moved twice in the first year and have moved twice since! Each time into bigger and better headquarters. Now settled with a large HQ in Berkshire, UK Events sits nicely in an area with access to the M3, M4 and M25 – from which they can get to just about anywhere in the country.

Their nationwide service has seen them deliver products to just about everywhere in the UK, with nowhere out of reach. Special occasions have even seen the team deliver dance floors to events in France and Spain!

As with all growing companies, UK Events Ltd has expanded it's services over the years to cope with growing demands and to give their customers more choice. In some instances, this has resulted in bringing new and unseen before products to the market place, keeping UK Events ahead of the competition.

Now UK Events Ltd has a dedicated team, both in office and on the road, who operate 24 hours a day, 7 days a week, 365 days a year, ensuring no event is out of their reach. It's this dedication to the industry demands that has given UK Events Ltd the reputation of one of the best companies in the UK to provide the services they offer.
